The world of the future has split into two dividing factions. Civilization has changed in its meaning, and citizens now live in glass towers built to sustain life as would in the natural world. Society in 672 has also taken on a different form, with natural prodigies being the ones who inhabit the glass towers, they work upon the newest technologies and abide by their belief that intelligence is genetically based. The rest of the world populace is shunned, otherwise known as the "Piggies" whom have become targets of ridicule for the citizens.

Emilia finds her own destiny inexplicably intertwined within the world that has come to be, and upon discovering a dark truth-must make a heartbreaking decision that will either lead to her utter destruction, or salvation.

Readers who enjoy classic dystopian science fiction novels such as Brave New World or 1984, may enjoy 672 as well.
